

# The Canadian Field-Naturalist

## Changes to the Book Reviews and New Titles Sections

As of the publication of Issue 135, Volume 2, our Book Review Editor will be stepping down. We have been unable to find a replacement to date; thus, this section will undergo several changes. Until we find a new editor, William Halliday (wdhalliday@gmail.com), our Online Journal Manager, will take over the New Titles list and Amanda Martin (canadianfieldnaturalistae@gmail.com), the Assistant Editor, will manage the Book Reviews. William Halliday will focus on titles of books that are available for review. Readers of this journal are invited to request titles they are willing to review from the list from William and, if still available, copies will be sent directly to them by the publisher. Readers will still be able to submit reviews of books they have on hand, provided that reviewed books have a Canadian connection, including those on any species (native or non-native) that inhabits Canada, as well as books covering topics of global relevance, including climate change, biodi-

versity, species extinction, habitat loss, evolution, and field research experiences. Book reviews will be submitted through the online submission system <https://www.canadianfieldnaturalist.ca/index.php/cfn/about/submissions>. All received reviews will undergo editing, and prospective reviewers are encouraged to check our book review guidelines at <https://www.canadianfieldnaturalist.ca/index.php/cfn/about/submissions>. These changes will be fully in place as of Issue 135, Volume 3 and continue until a new Book Review Editor is found.

We wish to thank each of you who has provided reviews in the past, and encourage all of you to continue to keep this section going. Lastly, are there any volunteers willing to assume the full role of the Book Review Editor? If so, please contact the Editor-in-Chief ([editor@canadianfieldnaturalist.ca](mailto:editor@canadianfieldnaturalist.ca)) for more information.

## Book Reviews

**Book Review Editor's Note:** *The Canadian Field-Naturalist* is a peer-reviewed scientific journal publishing papers on ecology, behaviour, taxonomy, conservation, and other topics relevant to Canadian natural history. In line with this mandate, we review books with a Canadian connection, including those on any species (native or non-native) that inhabits Canada, as well as books covering topics of global relevance, including climate change, biodiversity, species extinction, habitat loss, evolution, and field research experiences.

**Currency Codes:** CAD Canadian Dollars, USD United States Dollars, EUR Euros, AUD Australian Dollars, GBP British Pounds.
